

27.2% of the companies utilized NAFTA for either imports or exports. 143 companies utilize it for exports to Mexico and 133 companies utilize it for exports to Canada. For imports, 68

< Increase in labor costs due to the economic recovery >

The U.S. economic growth increased the liquidity of laborers.

[Metal goods (including plated products)]

Economic development in surrounding regions was remarkable and more companies entered into the market, so we had to raise wages in order to secure labor.

[Other manufacturing]
