President Biden Orders Review of Supply Chain Risks in Critical Sectors

Petitions and Investigations

US International Trade Commission Issues Affirmative Final Injury

excluded from the scope of the investigation. Silicon metal is currently classifiable under subheadings 2804.69.1000 and 2804.69.5000 of the HTSUS.

The US International Trade Commission (ITC) will determine, by April 9, 2021, whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of the imports subject to these investigations. If the ITC determines that such injury does not exist, these proceedings will be terminated. If the ITC determines that such injury does exist, DOC will issue antidumping and countervailing duty orders.

US Department of Commerce Initiates Antidumping and Countervailing Duty Investigations Concerning Imports of Pentafluoroethane (R-125) from China
